

Decomposable Clamping Element

It's a small element, extremely easy to install and/or replace in the system where is used:

- Fewer parts of the production machine need to be displaced;
- No need to slide the blocking element along the whole length of the guide.

## Guide size	20 – 25
Working type	Norm. Open / Norm. Closed
Body	Steel
Operating Temp.	-20°C ÷ 80°C
Operating Pressure	5,5 ÷ 8 bar

- ◆ **Single-piston system**
- ◆ **Reduced length**
- ◆ **High clamping forces**
- ◆ **Precise positioning**
- ◆ **High rigidity**
- ◆ **Shaped profile**
